SUMMARY

Design Engineer bridging the gap between visual design and technical implementation. I build pixel-perfect, interactive web applications using **React, TypeScript, and Tailwind CSS**, with a **strong foundation in UX research and accessibility**. Passionate about creating fluid interfaces that feel alive.

TECHNICAL SKILLS

Development: React, TypeScript, Tailwind CSS, JavaScript (ES6+), Git & GitHub, Vite, Vercel, Framer Motion

Design: Figma, Interaction Design, Prototyping, Wireframing, Accessibility (WCAG), User Research

SELECTED PROJECTS

PulseLog – Workout Tracking Logic
Design Engineer & React Developer

• Engineered a complex workout tracking application using React, TypeScript, and Tailwind CSS.
• Designed and implemented the complete UI/UX, bridging the gap between functional logic and visual aesthetics.
• Developed custom data structures to handle dynamic workout routines and progress tracking.

Dev Portfolio (levin-kooss.vercel.app)
Frontend Engineering

• Built a performant personal website from scratch to showcase the intersection of design and engineering.
• Tech Stack: React, TypeScript, Tailwind CSS, and Vite for optimal performance and scalability.
• Designed a responsive bento-grid layout with custom animations and interactive states (no templates used).

Lumi – Mood Tracking App
UX/UI Design & Mobile Concept

• Designed an emotional connection app focused on mental health, utilizing mascot-driven interactions.
• Created high-fidelity prototypes in Figma with advanced micro-interactions to enhance user engagement.
• Conducted user research to define the core "Shima Enaga" interaction model and validate UX decisions.

EXPERIENCE

Gloosy
